

OSHA Compliant Cleaning & Disinfection

At Servicon, we will help you build and execute your "**Routine Cleaning and Disinfection Program**" to ensure compliance with evolving OSHA regulations.

Communicating with employees about cleaning scope and frequency

Providing proper hand sanitizing / washing stations to employees on-site

Disinfecting shared desks and other items between uses

Deep cleaning of infected areas when COVID cases are identified

Introducing Cleaning Maps

In partnership with CrowdComfort, we use Cleaning Maps and Analytics to ensure compliance with OSHA regulations while giving your employees confidence to return to a safe, healthy and productive work environment.

Complete compliance documentation for state and federal audits

Real-time cleaning tracking by time, location and cleaning standard

Updatable map display of office cleaning for employees (#1 employee concern)

Ask your Servicon Representative about Cleaning Maps for your facility.
