

Cleaning Maps & Analytics

for Reduced Risk and Greater Accountability

Digitize Your Cleaning Practices with a Complete Audit Trail and Vendor Accountability

CrowdComfort's Cleaning Maps and Analytics provide real estate and facilities leaders with an easy to use mobile solution to digitize cleaning efforts. It provides powerful real-time analytics on all cleaning procedures by time and location with a fully reportable audit trail and vendor accountability built in.

Real-time cleaning compliance analytics by time and location

Complete compliance documentation for evolving state and federal regulations

Updatable map display of office cleaning for employees (*#1 workplace re-entry concern*)

Training and implementation in less than 30 days across all stakeholders

Multi-vendor support with complete training for internal and external cleaning crews

Full historical reporting by location, time, staff, vendor and compliance

Mobile First Facilities Management,
Cleaning & Analytics

Cleaning Maps & Analytics

for Reduced Risk and Greater Accountability

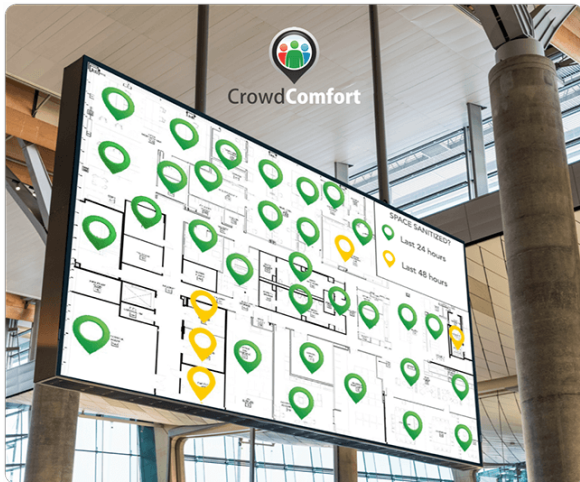

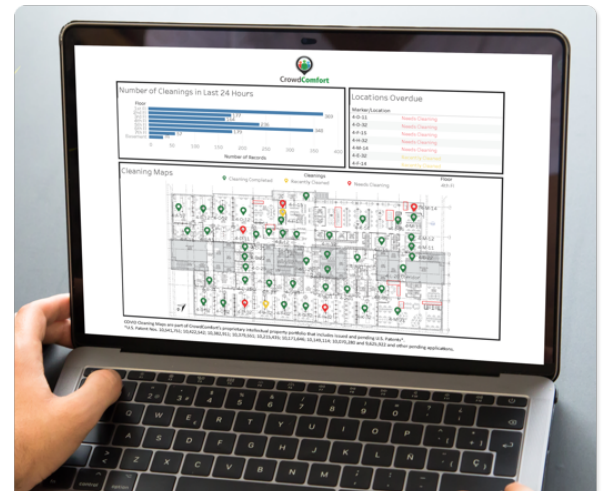

100% Digitized and Auditable in Less Than 30 Days

Reduce Cleaning Costs and Company Risk

- Up to 30% reduction in cleaning costs with better real-time data by location and time
- Reduce compliance risk with 100% audit trail for every area of your workplace
- Clean on-demand with sensor integration for occupancy based cleaning

Improve Employee Confidence and Health

- Improve employee confidence in returning to the workplace with full cleaning transparency
- Ensure deep cleaning and air filter compliance for all areas of the workplace and/or facility
- Mitigate risk of an outbreak among employees that would be high-impact and high-cost

Contact us to measure your cleaning process, energize your employees, optimize your facilities team and gain unparalleled, centralized insight into what's happening inside your office locations.
