Complete Cleaning Transparency with CrowdComfort Cleaning Maps and Analytics

We partner with you to define, measure and validate your cleaning goals, creating healthy and safe environments for your employees.

Cleaning Maps & Analytics is the latest innovation in cleaning validation with key features to ensure your facilities, workplaces and employees are clean, healthy and safe. Key features include:

- Real-time cleaning tracking by time, location and cleaning standard

- Updatable map display of office cleaning for employees (*#1 workplace re-entry concern*)

- Complimentary implementation by our team and cleaning crews

- Complete compliance documentation for evolving state and federal regulations

- Training and implementation in less than 30 days across all stakeholders

- Full historical reporting by location, time, staff and compliance for your team

Getting Started with Cleaning Maps & Analytics

1 We help you define and validate cleaning strategy for every area of your space

2 We digitize your floor plans and designate your cleaning areas with optional QR Code installation on site

3 Our training staff uses a mobile device to log every cleaning by each area's specific cleaning standards

4 We actively monitor every cleaning to ensure we meet your cleaning standards and review data with your team

Service by Medallion's mission is to provide our clients and employees with a clean, safe, and healthy environment through comprehensive and responsive building maintenance services. We provide our customers with high quality cleaning, responsive service, and the value our clients have come to expect.
