CLEANING MAPS & ANALYTICS

OSHA & CDC GUIDANCE AND COMPLIANCE

Combining first class janitorial and facilities management with best-in-class analytics technology for full cleaning transparency

REGULATORY HIGHLIGHTS

The CDC and OSHA have provided guidance to employers regarding COVID related best practices when it comes to cleaning your campus and facilities. Research below:

CLEANING & DISINFECTING YOUR FACILITY (CDC)

<https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>

GUIDANCE ON MITIGATING AND PREVENTING THE SPREAD OF COVID-19 IN THE WORKPLACE (OSHA)

<https://www.osha.gov/coronavirus/safework#roles-employers-workers>

GUIDANCE FOR BUSINESSES AND EMPLOYERS RESPONDING TO CORONAVIRUS DISEASE (COVID-19) (CDC)

https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html#anchor_1609684800152

WHAT THIS MEANS FOR YOU

COMMUNICATE YOUR PLAN TO OCCUPANTS

You are required to communicate their health & safety measures to occupants. This includes providing information on cleaning frequency and scope.

DISINFECTION BETWEEN USES

Any shared items or spaces need to be disinfected between uses. You will need a plan to deep clean desks, rooms and common spaces for students and staff.

HAND WASHING AND SANITATION STATIONS

You will need to provide ample sanitation stations throughout every space for employees to use as well as ways to ensure these stations are full.

DOCUMENTING CLEANING & SANITATION EFFORTS

Should a COVID case be identified or inspection be needed, you will be required to provide proof of compliance with health & safety standards including adherence to air quality and cleaning protocols.

HOW WE CAN HELP

REAL-TIME CLEANING TRACKING BY SERVICE LEVEL AGREEMENT (SLA)

We actively track every cleaning done by our team based on your unique cleaning & sanitation standards for frequency, room type and cleaning type.

HISTORICAL AUDIT TRAIL BY LOCATION

We digitally track every type of cleaning by our staff for every area of your workplace. You have access to a full audit trail of every cleaning to show compliance with state and federal regulations.

IMPROVE OCCUPANT CONFIDENCE ON-SITE

We can provide a daily cleaning map visualization that can be shared with students and faculty via on-site digital signage or via a webpage that they can check before heading to the campus. You have full control over what and when this is shown.
