CLEANING MAPS & ANALYTICS

OSHA & CDC GUIDANCE AND COMPLIANCE

Combining first class janitorial and facilities management with best-in-class analytics technology for full cleaning transparency

REGULATORY HIGHLIGHTS

The CDC and OSHA have provided guidance to employers regarding COVID related best practices when it comes to cleaning your facilities, offices and workplaces. Research below:

CLEANING & DISINFECTING YOUR FACILITY (CDC)

<https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>

GUIDANCE ON MITIGATING AND PREVENTING THE SPREAD OF COVID-19 IN THE WORKPLACE (OSHA)

<https://www.osha.gov/coronavirus/safework#roles-employers-workers>

GUIDANCE FOR BUSINESSES AND EMPLOYERS RESPONDING TO CORONAVIRUS DISEASE (COVID-19) (CDC)

WHAT THIS MEANS FOR EMPLOYERS

COMMUNICATE YOUR PLAN TO EMPLOYEES

Employers are required to communicate their health & safety measures to employees. This includes providing information on cleaning frequency and scope.

DISINFECTION BETWEEN USES

Any shared items or spaces need to be disinfected between uses. Employers will need a plan to deep clean desks, rooms and other areas after use by employees.

HAND WASHING AND SANITATION STATIONS

Employers will need to provide ample sanitation stations throughout every space for employees to use as well as ways to ensure these stations are full.

DOCUMENTING CLEANING & SANITATION EFFORTS

Should a COVID case be identified or inspection be needed, employers will be required to provide proof of compliance with health & safety standards including adherence to air quality and cleaning protocols.

HOW WE CAN HELP

REAL-TIME CLEANING TRACKING BY SERVICE LEVEL AGREEMENT (SLA)

We actively track every cleaning done by our team based on your unique cleaning & sanitation standards for frequency, room type and cleaning type.

HISTORICAL AUDIT TRAIL BY LOCATION

We digitally track every type of cleaning by our staff for every area of your workplace. You have access to a full audit trail of every cleaning to show compliance with state and federal regulations.

IMPROVE EMPLOYEE CONFIDENCE ON-SITE

We can provide a daily cleaning map visualization that can be shared with employees via on-site digital signage or via a webpage that they can check before heading into the office. You have full control over what and when this is shown.
