Summer Cleaning Solutions
for K-12 School Districts

CrowdComfort

Full Real-Time Transparency into Your Summer Cleaning and Facilities Work

CrowdComfort partners with K-12 School Districts to provide real-time insight into summer cleaning and facilities operations across the school district as they get ready for the fall. This enables some of the largest school districts in the US to ensure all work is on-time and on-schedule to be ready for the fall semester.

Real-time cleaning analytics by time, school building and location

Complete compliance documentation for evolving state and federal regulations

All cleaning activities tracked by individual location for each school and campus

Training and implementation in less than 30 days across all stakeholders

Multi-user support to enable team to complete different work at each location

Full analytics reporting with percentage complete for each building and location
